SERIOUS TRAININGS FOR SERIOUS LIFE

PROFESSIONAL TRAINING CENTER

---

## Course Programs

The HSEQ IRAN training centre's courses are not only limited to Oilfield. Courses have been developed for both the general and the special industries as the focus moves to improving Oil & Gas and Subsea safety. Better comprehension of markets and potential problems can be achieved through our General Oilfield general safety and Subsea familiarization and offshore reps safety courses. Courses are kept abreast of all new regulations to ensure personnel are fully up to date with current legislation.

## A Unique Facility

We have adequate training facilities in which client reps, auditors, supervisors, oilfield Engineers, HSE trainers and officers, Managers, technician and workers as well as normal people can be taught, trained and tested.

## Complete Training Experience

We are unique with our ability to offer a full range of HSEQ Trainings. HSEQ IRAN offers a wide range of accredited and bespoke Health and Safety training courses. All our courses are certificated and can be held at our client's premises or at one of our approved training centers.

## Corporate programs

We offer courses aimed to familiarize Managers, Engineers and Technicians with Oil & Gas and diving industry operations and offshore safety standards to improve competency and safety. Course syllabuses can be tailored to specific requirements as specified by individual companies depending on the current knowledge and experience of staff members. This ensures that companies can be sure their staffs are trained to the highest standards and necessary training to meet current legislation can be conducted quickly and effectively either at our training center or at the companies' own facility.

## Training on Clients' Sites

### Training how you like, when you like and where you like!

All our courses can be run in-house and tailored specifically to your needs at a date that suits your schedule and work routine, as well as building upon your training requirements, systems and procedures.

They can all be delivered at premises of your choice and at a time to suit you. We can provide all training equipment, screens, handouts and documentation leaving you to only arrange a venue, the delegates and refreshments if required.

### Outsourced training provision

Whether you have already identified a training need or you wish HSE Solutions to conduct a full training needs analysis of your workforce we are delighted to offer our outsourced unique tailored training provision. We provide tailored training programs that can be rolled out over multiple sites. We can arrange local venues close to your facilities, contact and co-ordinate attendance at the event and provide full documentation on attendance and evaluation.

### Cost effective training

In-house training can often be a very cost-effective method where more than four staff need trained. The majority of courses can be run for up to 16 delegates and the fees charged remain the same irrespective of the numbers attending.

### Client Specific Training

HSE Solutions can custom design courses specifically for clients on any subject relating the Health, Safety and Environment. We are able to call on the extensive experience of our consultants as well as our external specialists to ensure that, whether it be for senior management or new trainees, you get the best custom designed training experience for your staff.

**HSEQ IRAN, International HSE Services Provider and consultant for all industries.**
